Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1746

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5 and 9-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by UK 2, 234, 827.

Re claims 1 and 9 for example, note that UK'837 disclose a washing machine, comprising: a tub (as at 29) for holding laundry washed; a detergent reservoir (not shown) for holding detergent; a control panel (5) to control operation of the machine; a monetary payment means (25) operatively connected to the control panel to sense a monetary payment to the machine; and a pump (not shown) operatively connected to the payment means and to detergent reservoir to automatically pump a selected quantity of detergent reservoir to the tub, the selected quantity of detergent corresponding to the monetary payment (see the abstract).

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7 and 8 rejected under 35 U.S.C. 103(a) as being unpatentable over UK'837.

Claims 7 and 8 respectively define over UK'837 only in the recitation of the recitation of the additional payment for additional additives like a fabric softener and bleach. While

Art Unit: 1746

not specifically disclosed by UK'837, please note that the same does disclose that the user may purchase "detergent or a further service" and the addition of bleach and fabric softener are notoriously well known in the art.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Japan'300, Fong, Japan'996 and Fletcher, note the additive supply means.
